## DAFFODILS and IRIS

### —Choice Northwest Coast Grown Stock

As with all things, Daffodils vary as to quality and accordingly may be purchased at correspondingly varying prices. We have quoted below what appear to us to be reasonable prices for the stock we offer, which is grown in the Pacific Northwest. Although we are in contact with all growing territories, we firmly believe that there are no better Daffodils to be had at any price. It is false economy to pay less.

Do not be misled by offers of Wedgewood at lower than reasonable prices. This variety is particularly sensitive to mosaic disease. Only by careful rogueing in the field each year can the stock be maintained in clean and vigorous condition.

WE GUARANTEE our Iris have been properly rogued, are free of mosaic as well as other disease, and are fully up to size.
